WHEREAS, for the aforementioned and other reasons and in accordance with the cited authorities, the undersigned has determined that the circumstances described herein in connection with existing, ongoing, and anticipated supply chain disruptions and any actual, potential, or perceived interruptions in the availability, transportation, or delivery of critical consumer goods and industrial materials in the State of South Carolina constitute an emergency for purposes of 49 C.F.R. § 390.23 and section 56-5-70 of the South Carolina Code of Laws such that it is necessary and prudent to provide additional relief to assist in facilitating, supporting, and strengthening South Carolina's transportation industries and infrastructure so as to avoid, mitigate, or minimize further national and international supply chain interruptions.

NOW, THEREFORE, by virtue of the authority vested in me as Governor of the State of South Carolina and pursuant to the Constitution and Laws of this State and of these United States and the powers conferred upon me therein, I hereby order and direct as follows:

Section 1. Transportation Waivers to Address Continued Supply Chain Disruptions and Nationwide Infant Formula Shortage

A. I hereby determine and declare that the existing, ongoing, and anticipated threats and circumstances described herein associated with supply chain disruptions and the impacts related to the same constitute an emergency pursuant to 49 C.F.R. § 390.23 for purposes of suspending certain rules and regulations, as set forth below, for commercial vehicles and operators of commercial vehicles in accordance with 49 C.F.R. § 390.23 and section 56-5-70 of the South Carolina Code of Laws.

B. I hereby authorize and direct the South Carolina Department of Transportation ("DOT") and the South Carolina Department of Public Safety ("DPS"), including the State Transport Police, as needed, to waive or suspend application and enforcement of the requisite state and federal rules and regulations pertaining to registration, permitting, length, width, weight, load, and hours of service for commercial vehicles and operators of commercial vehicles operating in

accordance with the provisions of the Federal Motor Carrier Safety Administration's ("FMCSA") May 27, 2022 Extension and Amendment of the Modified Emergency Declaration No. 2020-002 Under 49 C.F.R. § 390.25 or the FMCSA's May 23, 2022 Regional Emergency Declaration No. 2022-005 Under 49 C.F.R. § 390.23, or any future amendments or supplements thereto; providing direct assistance as defined by 49 C.F.R. § 390.5 to the declared emergencies in the State of Georgia or the State of North Carolina; or otherwise assisting with the existing or anticipated threats and circumstances associated with supply chain disruptions, to include those related to the nationwide infant or baby formula shortage, as further described herein.

C. I hereby authorize DOT and DPS, as applicable, to apply for or request any additional federal regulatory relief, waivers, permits, or other appropriate flexibility deemed necessary, whether pertaining to the transportation of overweight loads on interstate highways or otherwise, on behalf of the State of South Carolina and to promptly implement the same without the need for further Orders.

D. This Section shall not be construed to require or allow an ill or fatigued driver to operate a commercial motor vehicle. In accordance with 49 C.F.R. § 390.23, "a driver who informs the motor carrier that he or she needs immediate rest must be permitted at least ten (10) consecutive hours off duty before the driver is required to return to such terminal or location." Likewise, this Section shall not be construed as an exemption from the applicable controlled substances and alcohol use and testing requirements in 49 C.F.R. § 382, the commercial driver's license requirements in 49 C.F.R. § 383, or the financial responsibility requirements in 49 C.F.R. § 387, and it shall not be interpreted to relieve compliance with any other state or federal statute, rule, order, regulation, restriction, or other legal requirement not specifically waived, suspended, or addressed herein or addressed in any additional or supplemental guidance, rules, regulations, restrictions, or clarifications issued, provided, or promulgated by DOT or DPS.

E. Subject to any guidance, rules, regulations, restrictions, or clarification issued, provided, or promulgated, or which may be issued, provided, or promulgated, by DOT or DPS, as authorized herein or as otherwise provided by law, and notwithstanding the waiver or suspension of certain rules and regulations as set forth above, drivers in South Carolina are still subject to the following state requirements to ensure public safety:

1. Weight, height, length, and width for any such vehicle with five (5) weight bearing axles on highways or roadways maintained by the State of South Carolina shall not exceed, for continuous travel on all non-interstates, United States, and South Carolina designated routes, maximum dimensions of twelve (12) feet in width (except as provided below), thirteen (13) feet six (6) inches in height, and ninety thousand (90,000) pounds in gross weight.
2. Posted bridges may not be crossed.
3. All vehicles shall be operated in a safe manner, shall not damage the highways nor unduly interfere with highway traffic, shall maintain the required limits of insurance, and shall be clearly identified as a utility vehicle or shall provide appropriate documentation indicating they are responding to the emergency.

4. Except as provided below, any vehicles that exceed the above dimensions, weights, or both, must obtain a permit with defined routes from the South Carolina Department of Transportation Oversized/Overweight Permit Office. To order a permit, please call (803) 737-6769 during normal business hours, 8:30 a.m. – 5:00 p.m., or (803) 206-9566 after normal business hours.
5. In accordance with federal law, vehicles traveling on non-interstate routes within the National Network may not exceed a width of 102 inches or 8.6 feet without a special permit. Information regarding special permits for width on the National Network are available on DOT's website, and a list of routes on the National Network is set forth in Appendix A to 23 C.F.R. Part 658.
6. Transporters are responsible for ensuring they have oversize signs, markings, flags, and escorts as required by the South Carolina Code of Laws relating to oversized/overweight loads operating on South Carolina roadways.

F. I hereby authorize DOT and DPS to issue, provide, or promulgate any necessary and appropriate additional or supplemental guidance, rules, regulations, or restrictions regarding the application, implementation, or enforcement of this Section, or to otherwise provide clarification regarding the same, without the need for further Orders.

G. This Section is effective immediately and shall remain in effect for thirty (30) days or until the declared emergencies in the State of Georgia and State of North Carolina are terminated, whichever is less, in accordance with 49 C.F.R. § 390.23 and section 56-5-70 of the South Carolina Code of Laws. Unless otherwise modified, amended, extended, or rescinded by subsequent Order and absent any different or additional directives, upon the expiration of this Section, DOT and DPS may exercise discretion, to the extent appropriate and authorized or otherwise provided by law, over the application and enforcement of the requisite state and federal rules and regulations pertaining to registration, permitting, length, width, weight, load, and hours of service for commercial vehicles and operators of commercial vehicles as necessary to address any ongoing supply chain disruptions, to include those related to the nationwide infant or baby formula shortage, as further described herein or any different or additional supply chain disruptions.
